## PROFILE

Full-stack developer proficient in a variety of programming languages and frameworks, with the ability to swiftly learn and adapt to new technologies. Developed a unique blend of creativity, technical expertise, and disciplined thinking through key roles in the film and TV industry, as well as in stock and option trading.

## WEB DEVELOPMENT PROJECTS

### Portfolio Strategist

Java, Spring Boot, MySql

- Connected Interactive Brokers web server to load trading data into the app database.
- Developed REST API with Spring Boot for data querying and manipulation.
- Adopted Test Driven Development with Mockito and JUnit 5.

### Flixit

Backend: Node.js, Express, MongoDB; Frontend: React, Angular

- Setup cloud database with detailed information about Italian movies.
- Constructed a REST API with Node.js and Express to enable user registration and movie information queries.
- Developed two frontend variations (React and Angular) for user login, movie information display, and favorite list creation.

## PROFESSIONAL EXPERIENCE

### Stock and Option Trader

Self-employed

2013-2023

- Pursued long and short-term investment goals using planning, analytical and organizational skills.
- Utilized Motley Fool principles for option trading, employing advanced strategies such as bull put/calls, diagonal calls, covered calls, etc.
- Built software tools with Google App Script for insight and data analysis.

### TV Producer and Scriptwriter

Mediaset, Rai, Publispei and others

2001-2012, 2019-2021

- Successfully managed large TV projects through effective team management and leadership
- Produced multiple popular shows for Mediaset, a major Italian TV Network (*L'onore e il rispetto*, *I Cesaroni*, *Rivombrosa*)
- Authored award-winning scripts for films and TV series.

### IT Translator

Zeitgeist, London and others

2014-2019

- Translated IT documentation and marketing material for top-tier international companies (*Oracle*, *MongoDB*, *Symantec*, *Palo Alto Networks*)
- Used technical knowledge, reliability and time management skills to gain reputation among the most demanding clients.
